```

Attacks on agent memory

Zou et al. [16]
poison a retrieval store

Ju et al. [42]
spread after an attack

Models of how errors spread

Niu et al. [5]
epidemic model

Jamshidi et al. [17]
chain attenuation

Liu [18]
evaluator bias

Gu et al. [43]
million-agent limit

Shen et al. [44]
topology effect

Attempts to contain the spread

Xie et al. [6]
genealogy layer

Margalit et al. [19]
governed memory

Itkin [20]
correction timing
